ON THE HILBERT FUNCTION OF ONE-DIMENSIONAL LOCAL

complete intersections ? J. Elias M. E. Rossi G. Valla July 24, 2013 Abstract The sequences that occur as Hilbert functions of standard graded algebras A are well understood by Macaulay's theorem; those that occur for graded complete intersections are elementary and were known classically. However, much less is known in the local case, once the dimension of A is greater than zero, or the embedding...
